

Endorsed Programme Module – Excellence Global Ltd
Principles and Practices in Animal Welfare

Learner outcomes

The learner will understand the:

1. Practical application of animal welfare standards
2. Regulatory welfare requirements for the humane treatment of animals prior to slaughter
3. Animal behaviour and characteristics

Programme Objectives

1. Provide guidance of the humane treatment of animals both before and during slaughter
2. To improve the welfare of meat animals
3. Ensure that the slaughter process is carried out in a humane, hygienic and safe manner at all times
4. Develop a professional and responsible attitude in ALL those involved with the handling and slaughter of animals
5. This training will be useful for all abattoir staff that work with animals and are responsible for the animal's welfare on a day-to-day basis.

Additional information about the module

<p>Module purpose and aim(s)</p>	<p>This module supports workforce and/or vocational development for those who need to understand the principles and practices in animal welfare.</p> <p>The module is designed for use primarily by those working in abattoirs and others who carry out these workplace activities, who require training for regulatory compliance.</p>
<p>Test requirements</p>	<p>This module is designed to test the underpinning knowledge and understanding of learners in the workplace context, for understanding the principles and practices in animal welfare.</p> <p>The learner must demonstrate their knowledge and understanding, to meet all learning outcomes. Test methods should be used to meet the needs of learners.</p>
